OFFERED BY

J. M. Thorburn & Co.

Growers and Importers of Seeds,

NO. 15 JOHN STREET, NEW YORK.

Garden Seeds in Papers for Retail, $2.50 per 100 Papers, except Peas, Corn and Beans, which are $3.50 per 100 Papers. Special Rates for Large Quantities.

NEW YORK, *January 1, 1895.*

THE QUOTATIONS in this List are intended for the **Wholesale Trade** only, and are subject to advance without notice.

Not less than 25 pounds are sold at the 100 pounds rates.

In the absence of instructions when shipping, insurance will be effected at our discretion.

Terms of Sale.—Net Cash on June 1st, 1895, without regard to the day of purchase; or a discount of one per cent. a month will be allowed on all payments made before June 1st. Goods purchased after June 1st, Net Cash October 1st; and after October 1st, Net Cash January 1st, following. All bills amounting to less than $50 are Net Cash. Grains, Grass, Clover and Canary Seeds, Onion Sets and Potatoes are Net Cash.

We are growers and importers, and make Vegetable and Flower Seeds in bulk a specialty in our business, bestowing the utmost care upon all crops.

We feel justified in saying that all our seeds are the purest and best to be found; but at the same time, it must be distinctly understood that *our Seeds are sold without any warranty, express or implied, and without any responsibility in respect to the crop. If our Seeds are not accepted on these terms, they must be returned at once.*

ASPARAGUS.

Columbian Mammoth White. A sport from Conover Colossal. It produces pure white shoots, and requires no artificial blanching. On this account it brings in the market a much higher price than any other sort. It is a strong grower, and comes remarkably true from seed—not more than 10 per cent. reverting to the type

Myers' Bucket Brass Spray Pump, with Agitator, complete with hose, Combination Fine and Coarse Spray and Solid Stream Nozzle. This Spray Pump is constructed of brass, and is not affected by the poisonous arsenites used for spraying. It is arranged so that the heavy work is done on the down stroke of the plunger and nothing on the up. It is thus very easy to operate, and has extraordinary power. It will throw a solid stream 50 feet and is of unusual value for washing windows, etc., For spraying it is arranged so that it discharges a fine jet in bottom of bucket to keep the solution thoroughly mixed and agitated. The pump is provided with a combination nozzle, and also with a Sprinkler for flowers. and will throw a spray as fine as mist, or as coarse as required. For spraying large trees, an 8-feet pipe extension is supplied for 60 cents extra. Price, complete. $36 00

Raffia (for tying), for bale of about 225 lbs., 13 cts. per lb.; .....per 100 lbs., $14; per lb., 17 cts..

DATURA

Cornucopia (Horn-of-Plenty). Of robust habit, and assumes the proportions of a good-sized shrub in a single season. It does splendidly in the open ground. The flower is immense, often 10 inches long and 5 inches wide at the mouth, and conical, having three cones, one within the other, each with spreading, wavy margin. The color is fine purple and French white, the former predominating outside, and the latter within the throat and the tube of the flower

POTATO, CARMAN No. 1.

It is doubtful if any novelty ever created such a sensation among potato growers as this wonderful new Potato, introduced by us last year. The demand for it was many times in excess of our supply, and as many were disappointed in securing some last year, we would recommend them to order promptly on receipt of this.

For full description, see current General Catalogue. Owing to the drought, the Potatoes are quite small this year. **$14 per bbl.**

CARNATION, DOUBLE PERPETUAL. (NEW.)

This new Carnation was raised by Mr. Chabaud, the foremost Carnation grower of Europe. It is the most valuable of his introductions, and this alone is a sufficient guarantee of its excellence.

The plant grows from 16 to 20 inches high, is closely branched, and carries its bloom well. The straight, vertical flower stems are covered with large, handsome, very double flowers in every variety of color.

It blooms in about seven months after being sown, and continues to flower in the greatest profusion indefinitely. It possesses all the good qualities of the best Tree Carnations, together with the earliness of the Margaret Carnation, and produces double flowers at the rate of 80 to 90 per cent. In view of its earliness, hardiness, robust growth, variety of color and persistent blooming, it is likely to supersede all other varieties.

The seed we offer was saved exclusively in the Garden of Carnations of Provence, under the supervision of Mr. Chabaud himself. It may be sown either in autumn or early spring. Per trade pkt., $1; ⅛ oz., $3; oz., $20
